

WRITE A RAINBOW POEM WITH HOPE

Instructions: Get creative in this activity by making your own special rainbow! Fill in each ray with words to complete your own poem, then color it in, cut it out and hang it up for all to see!

Did you know that a rainbow is an optical illusion? That means, it doesn't exist in one place in the sky — it looks different to everyone who sees it!

Just like looking at a rainbow in the sky, we each get to create our own joy and help other people feel happy too — **especially now with Hope, a Dream Seeker doll who encourages everyone to find her own rainbow of happiness.**

Take the first letter from each color of the rainbow and write your own rainbow poem! Remember, there's no right or wrong way to do this. It's all about finding your unique vision.
