Space Scramble

When Nora Al Matrooshi was training to be an astronaut, she had to learn all sorts of new things, like how to do emergency medical procedures, how to speak Russian, and how to do daily tasks without gravity! Unscramble the words to the right to discover other things astronauts do, learn, and see in space. And, if you get stumped, check out the hint box.

BE CURIOUS. STAY REBEL!

Spot the Difference

Octavia Butler's unique imagination was powered by her curiosity. The pictures below are unique too. Circle six things that have changed from one image to the next.

Meet Hedy Lamarr

As a young woman, Hedy Lamarr married a wealthy man and moved into a beautiful house. But she was unhappy. She had big **dreams**, and her husband was not supportive.

Hedy decided to start a new life. She fled to **Paris** where she met a prominent **film** producer. Together, they went to **Hollywood**, and Hedy eventually became a movie **star**.

But **acting** wasn't Hedy's only strength. She was always thinking of ways to **improve** things, and soon she became an **inventor**. Her most notable invention was a radio **communication** system that was used during World War II.

Hedy's **curiosity** led her to accomplishing big goals.

All of the bold words above can be found in the puzzle below. They can go up, down, forward, backward, and even diagonally.
